

Men, Women and Children WANTED

To Help Keep Warley Clean - **Let's Keep It The Best Village In Halifax!**

Warley is a beautiful place to live and a very sought after location.

But it's in danger of losing its charm and beauty...

Litter is making the place look a mess!

Some of it is left after bin day and some is from the careless droppings of selfish visitors to the village

This litter is a BIG problem because...

* When people see litter **they're far more inclined to drop litter themselves** or worse still, dump household waste in our lanes and fields.

* Rats and other vermin are far more likely to hang around if they have waste to feed on...

* And ultimately it won't feel like a nice, tidy or friendly place to live anymore!

But we can change this -

Let's Do Something About It Together And Keep It A Place We Can All Be Proud Of!

Register your support NOW so we can get a group together which does a litter pick up every few weeks. If we keep on top of it then it will take no more than an hour or so to do.

Please let Me Know If You Can Help and spare a little time every few weeks.

Let me know by email: jago@jagoholmes.com or give me a call on 836157
